About Me: I am Gerald Sedgwick, a seasoned Computer Technicians. I have an experience of 10 years in providing IT Support to software clients at home and small/medium businesses around the United States. Currently, I am providing my services from South Africa - which is offering me the quickest and the best Internet connections. If you are looking for a knowledgeable and affordable remote IT support solution, look

no further than MyVPS. Interests: Right now I am looking for a girl who shares my interests. The remote concept is great, because she doesn't have to live by me!

Experience: I have been using computers since the Apple 1 and Commodore 64.

A new *E. coli*, *Burkholderia cepacia*, *Proteus mirabilis*, *pseudomonas*, and *staphylococcus* species in a neonatal unit: implications for infection control. A new strain of *Escherichia coli*, *Burkholderia cepacia*, *Proteus mirabilis*, and *Proteus vulgaris* were isolated from nasal swabs collected from 42 neonates in a neonatal intensive care unit. The isolates were identified using conventional laboratory methods and the API 20E, API 20NE, and API 25E systems (bioMerieux, Inc., Durham, NC). All four species were resistant to ampicillin and cephalothin, but sensitive to chloramphenicol, gentamicin, ciprofloxacin, and tetracycline. In vitro susceptibility testing showed the new *E. coli* strain to be sensitive to ciprofloxacin, gentamicin, and chloramphenicol. The new *Burkholderia*

cepacia strain was sensitive to gentamicin and chloramphenicol. This is the first report of *E. coli* and *P. vulgaris* (but not *P. mirabilis*) being cultured from an infected neonate.

1. Field of the Invention The present invention relates to a light guide plate usable as a component for a surface light source which has a light guide plate portion and a light source portion.

2. Description of the Related Art In recent years, liquid crystal displays have been increased in size and brightness, and have come to occupy a greater share of the display market. On the other hand, displays with a touch function have also been popular in recent years. In those displays, light sources which emit light rays enter the displays
